RotaryPark\_Trend.pdf

Dan, does something like this work for you but would you like it just for zinc? This is from Rotary Park on 8/6 and 8/7, which I thought might show you the plume moving through. Let me know-you can access this graph on the viewer by clicking on the Animas Rotary Park sample location and clicking trend at the bottom of the popup! Once we get results for 8/8 and 8/9 that graph will be updated.
